	Custom controls and switches to allow for user-friendly operation.	SEE PAGE 07

Choose the Best. Webasto's Full Line of Aftermarket Sunroofs.

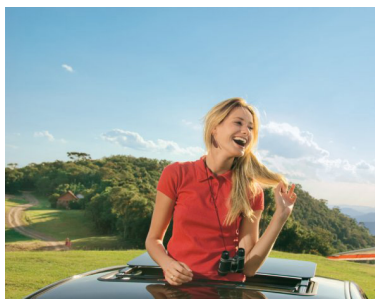

Light.

A sunroof will make the driving experience more enjoyable by bringing light and sunshine into any vehicle, and let you experience the outdoors while driving. Light is the number one "feel-good-factor" and your customers will be able to enjoy that as often as possible. The appearance of an open vehicle interior immediately provides a much more satisfying atmosphere.

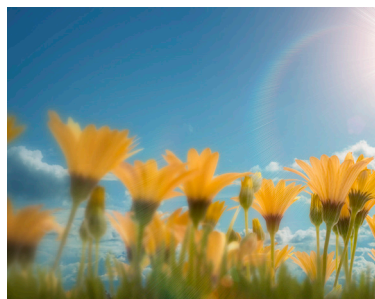

Quality.

With Webasto sunroofs, vehicle owners can have assurance in the safety of their sunroof, thanks to our top quality inspected products.

Enjoyment.

Every year, five million factory-fitted Webasto roof systems open new perspectives for car drivers throughout the world, offering them a real open-air feeling and pure driving fun and freedom.

Fresh Air.

With fresh air, your driving experience automatically becomes significantly more relaxed. A sunroof allows air to flow evenly from above the driver, which is much quieter and less intrusive than wind blowing through a side window.

The largest range of Inbuilt Sunroofs.

Finding the right sunroof for you vehicle.

Power inbuilt sunroofs are designed with quality and innovation in mind, adding clean elegant styling to the exterior while matching the vehicle's interior to create a custom application look.
